Congratulation to all our pilots.

The first was Julien Barbier at his first world experience, 4rth. really good result with the Miniplane basin carburator.

With the GE engine the first was Gzegorsz, 7nth. This position don't give him satisfaction, its possibilities allow better results that we hope he will reach soon

There was other pilots with GE engine.

We are really happy of the engines, always good performances, and all the good characteristics that we wont verify in that difficult championship.

We was not luky, all our pilots had small or big problems in the most important tasks, Gzegorsz for example broke a prop in the slalom task where normally is one of the best pilots on the world.

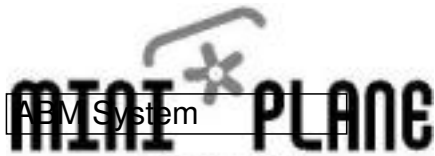

We pay too much some bad choices as the glider size for example.

Anycase we are happy, thanks for your cooperation pilots !

Poland 2012

1

Grzegorz Krzyzmanowski

2

Kamil Mankowski

Ciao Diego! Last weekend we compete in 14th Polish National Championships with great results. 1. Grzegorz Krzyżanowski - Miniplane TOP 80, Dudek Hadron 20
2. Kamil Mańkowski - Miniplane TOP 80, Dudek Hadron 22
There was seven tasks, 3 navigation, 1 economy, 3 precision (clean start, 8, triangle)

Almost 30 pilots started in four groups - PF1, PL1, PF2, PL2.

One more time your engine was above the rest of participants, Gregory has it in one finger :)

Thank you very much for support, we are pleased to use Per il Volo inventory.

Best regards,

Kamil

Irek Wątroba
